

LASER TAG

at

ULTRAZONE THE ULTIMATE LASER ADVENTURE

THE GAME

Laser tag is high tech entertainment that combines cutting edge computer technology with action-oriented team play. This is a true group activity – you are the game! Following an instruction session or “briefing,” players are grouped into teams and then enter the “vesting room” to receive computer driven sensor-vests and lasers. As adrenaline peaks, players then enter the **ZONE**; a one-of-a-kind, multi-level game arena; where they maneuver through an incredible blacklit environment of mazes and passageways, enhanced by forced-perspective dimensional graphic art, a massive sound system, and theatrical fog. Players score points by tagging opponents and capturing bases, while being challenged by fully interactive game elements in “real time” play.

THE FACILITY

- Established in San Diego in 1995, over 1,800,000 players
